Executive Principal / CEO

The Westminster School, Dubai has designed its curriculum to empower the learners and create their future. Primarily, we offer the National Curriculum for England; however, we also incorporate the goals and values of GEMS Education and the rich national influence of the UAE. This results in students being offered a modern, exciting, and educationally advanced curriculum. a vibrant & creative learning environment.

Core Curriculum: **National Curriculum for England**

Language of Instruction: **English**

The National Curriculum for England is a broad and balanced curriculum applied in over 150 countries across the world. It is based on a structured and broad framework that outlines expected levels of achievement through all stages of a student's school life.

In Foundation Stage 1 and 2 students, follow the new framework of the Early Years Foundation Stage program.

In Years 1 to 8, the students' progress through the National Curriculum for England.

Integration of STEAM, coding into the curriculum and International Early Years Curriculum (IEYC) are intrinsic features of learning across the school from FS 1 to Year 8.

In Year 9, the students do a Pre IGCSE programme where they explore a broader variety of subjects before they make an informed choice of subjects for IGCSE.

Years 10 and 11 students' study IGCSE subjects, Years 12 and 13 AS and A level subjects.

The curriculum lays the foundation for students to pursue university levels of education or professional career paths suited to their abilities, talents and interests. All IGCSE, AS and A level qualification awards are recognized worldwide. The Westminster School students move on to higher education across the world, many to prestigious universities.

In addition to the development of specific skills and competencies, the curriculum emphasises innovation, enquiry, creativity, analytical evaluation, and other 21st century skills needed to meet the challenges of the future.

Through innovative styles of teaching, workshops, projects and experiments students are given the opportunity to explore aspects of the curriculum and develop a variety of practical skills. Under the guidance of their teachers, students learn aspects of management, instruction and leadership, enhancing their knowledge, confidence and skills, so that they can make more defined career choices.

EARLY YEARS FOUNDATION STAGE

Foundation Stage 1 (FS1) AND Foundation Stage 2 (FS2)

Ages: 3 to 5 years

Early Years Foundation Stage comprises Foundation Stage 1 and Foundation Stage 2. Initiation into the school through fun-filled and stimulating activities by caring teachers helps each student to view schooling very positively, an attitude which contributes immensely towards developing lifelong learning skills.

This ensures that the transition from home to school is easy and enjoyable. Learning in a safe, secure and happy environment leads to healthy social and communication skills, greater self-esteem and good development of basic cognitive and motor abilities.

The key areas of learning and development covered at this stage are:

- Communication and Language
- Physical Development
- Personal, Social and Emotional Development
- Literacy
- Mathematics
- Understanding the World
- Expressive Arts and Design

Students in the Foundation Stage are suitably prepared for literacy and numeracy. Phonic methods and well-graded writing patterns follow a comprehensive foundation-building programme focusing on enhancing skills in listening, speaking, reading and writing. The programme is geared for developing self-esteem, social and communication skills, in addition to the basic cognitive and motor abilities. Learning takes place directly through formal teaching including ICT (Information and Communication Technology) and an activity-based programme. The focus is on both individuals as well as group activities.

Arabic Language: Students in the Foundation Stage are introduced to Arabic language and dedicated lessons delivered by Arabic specialists take place from FS2.

Integration of coding, STEAM and the International Early Years Curriculum (IEYC), is an intrinsic feature of learning across the Early Years Foundation Stage.

By the end of Foundation Stage, students become confident and comfortable in the school environment and gain basic knowledge of core concepts in order to prepare them to begin the British National Curriculum.

PRIMARY SCHOOL

Key Stage 1 (Year 1 and Year 2) and Key Stage 2 (Year 3 to Year 6)

Ages: 5 to 11 years

In these years of school, students lay a solid foundation for learning that they will use for the rest of their lives. The National Curriculum for England has a very structured flow of learning that challenges and assesses students to ensure development in key academic areas is being met.

Subjects at this level:

- Islamic Education (in Arabic and in English)
- Arabic for Arabs
- Arabic for Non-Arabs
- English

- Music
- Moral Education (Year 2 onwards)
- French /Urdu (Year 3 onwards)
- Global Perspective

Within the Primary School, academics is integrated with opportunities to enable children to achieve their full potential and develop skills of reasoning, problem-solving and creative thinking. Learning ensures that all of our students are enthused by what they are learning, and our teachers are passionate about what they are teaching. Students pursue academic and non-academic prospects through various activities. Socially preferred behavior patterns are inculcated through a focus on etiquette and values that will lay the foundation for students' social interaction and development. Common Sense Media lessons and Sustainability lessons are integrated into the curriculum.

Students of Key stage 2 are provided with the opportunities to develop their leadership skills by sharing class and school responsibilities that nurture organizational skills, accountability and team spirit. The Primary School is the stage of enhanced learning, where the students are constantly evolving and growing, intellectually and emotionally. The students of Upper Key Stage 2 are also exposed to Robotics and augmented reality resources to enhance their learning skills.

Students in Key Stage 1 and Key Stage 2 will prepare for the UAE International Benchmark assessments as prescribed by the KHDA.

SECONDARY SCHOOL

Key Stage 3 (Year 7 and Year 8) and Key Stage 4 (Year 9 to Year 11)

The Secondary School covers the ages of 11 to 16 years.

Key Stage 3 (Year 7 and Year 8)

The Years 7 and 8 curricula, integrating IMYC inspire students and meet the unique needs of their teenage brains during a time when many, overwhelmed by the combination of the transition from Primary to Secondary education.

At this stage, the learning goals seek to encourage the holistic development of internationally-minded learners. Rigorous and deep learning is represented under the categories of knowledge, skills and understanding through enquiry, research and problem solving learning.

Opportunities to experience and practice individual qualities and dispositions like resilience, morality, communications, thoughtfulness, respect and adaptability are built in the learning tasks within the curriculum.

Post -16 Level

Key Stage 5 (Year 12 & 13): A-Levels

Post 16 Holistic Curriculum is built on teaching and learning principles that regard the student as a full person who is interconnected to one another. The curriculum methods strive to make learning a self-improvement process that explicitly identifies the self and the social context of learning and teaching, as well as identifying the requirements of the individual learner in the interaction. It emphasizes the learner's emotional, social, and cognitive well-being evenly.

Post 16 educational system remains effective while also being relevant to the advancements we are making every day. For improved performance, our teachers combine technology with textbook learning. The usage of technology is inextricably linked to the concept of an innovation school.

Holistic education works to promote appropriate skills within a flexible, future-oriented curriculum and platform for lifelong learning. Building a link between skill development and broader education, employment, and growth.
